AGRICULTURAL ENGINEERING

The Journal of the

American Society of Agricultural Engineers

Index to Volume 2—January to December, 1921

1921

	Pages
January	1- 24
February	25- 48
March	49- 72
April	73- 96
May	97-120
June	121-144
July	145-168
August	169-184
September	185-200
October	201-216
November	217-240
December	241-256

Agricultural Engineering (Agricultural Engineer)
The farmer's engineering problems (J. R. Howard) 17
Mental tests for predicting success in agricultural engineering (H. E. Burtt and F. W. Ives) 37
Training the agricultural engineer (S. F. Morse) 56
Opportunities for the agricultural engineer in commercial work (F. W. Ives) 67
Agricultural engineer in commercial work (S. F. Morse) 150

Agricultural Engineering (A.S.A.E. Journal)
The Journal's service (J. B. Davidson) 44
What you make it (editorial) 68
Alcohol for Fuel, Possibilities of (A. H. Gilbert) 5

American Society of Agricultural Engineers
The president's annual address (F. N. G. Kranich) 7
Armsby, H. P.—Some fundamentals of stable ventilation 151, 174

Ayres, Q. C.—Special problems in open ditch design 105

Barns
(See also Roofs; Ventilation)
A result of improper barn roof construction (R. W. Carpenter) 123

Buildings
(See also Barns; Elevators; Heating; Hog Houses; Roofs; Structural Equipment; Ventilation)
Research, 1920 (R. W. Trullinger) 11
Preservative treatment of wood in farm structures (E. C. Mandenberg) 32
A comparative study of some insulating materials (R. R. Graham) 171

Burtt, H. E.—Mental tests for predicting success in agricultural engineering 37

Carpenter, R. W.—A result of improper barn roof construction 123

Clarkson, W. B.—Farm building ventilation and some related factors 228

Clearing, Land
(See also Explosives)
Land clearing with dynamite (A. L. Kline) 29
Discussion 65

Collins, E. V.
Making a tractor drawbar test 19
Factors influencing the draft of plows 27

Commercial Practice (Consulting Work)
Training the agricultural engineer (S. F. Morse) 56
Opportunities for the agricultural engineer in commercial work (F. W. Ives) 67
Agricultural engineer in commercial work (S. F. Morse) 150

Consulting Work (See Commercial Practice)

Copeland, J. T.—Farmstead arrangement 77

County Agents, Affiliation of (A.S.A.E.) 164

Crampton, G. W.—Farm equipment standardization from the manufacturing standpoint 102

Cultivation (See Tillage)

Ditchers for Farm Drainage, Power (J. A. Howenstine) 147

Divisions (A.S.A.E.)
College Division organized 20
Reclamation Division approved 68

Drainage
(See also Explosives)
Research, 1920 (R. W. Trullinger) 11
Application of the law of variables to the design of drainage outlets (David Weeks) 81
Results of a drainage investigation (S. H. McCrory) 84
Special problems in open ditch design (Q. C. Ayres) 105
Ditch blasting costs (A. W. Wilson) 129
Tile drainage investigations in North Carolina (H. M. Lynde) 133
Power ditchers for farm drainage (J. A. Howenstine) 147
Building farm drainage ditches with water (J. W. Johnston) 249

Dynamite (See Explosives)

Educational
(See also Extension; Research; Teaching)
What a four-year course in agricultural engineering should include (E. R. Gross) 79

Ekblaw, K. J. T.—
Artificial heat for animal shelters 13
Computing fuel requirements for heating buildings 149

Electricity
Development of farm electric light and power plants (L. S. Keilholtz) 109

Elevators, The Design of Farm (W. G. Kaiser and W. A. Foster) 51

Ensilage Cutters
Proposed A.S.A.E. rating code 165

Erosion, Soil
Terracing to prevent soil erosion (E. W. Lehmann) 86

Explosives
Land clearing with dynamite (A. L. Kline) 29
Discussion 65
How explosives help develop waste land (A. W. Wilson) 129
Picric acid as an agricultural explosive (John Swenehart) 246

Extension Work
A record system for agricultural engineering specialists (I. D. Wood) 187

Farmstead Arrangement (J. T. Copeland) 77

Farm Management (See Management)

Farm Structures (See Buildings)

Farm Tractor (See Tractors)

Foster, W. A.—The design of farm elevators 51

Fuels
Possibilities of alcohol for fuel (A. H. Gilbert) 5

Gilbert, A. H.—Possibilities of alcohol for fuel 5
Graham, R. R.—A comparative study of some insulating materials 171

Gross, E. R.—What a four-year course in agricultural engineering should include 79

Harris, F. C.—Sunshine efficiency of hog houses 219

Harrow, Disk
Disk harrow investigation (A.S.A.E.) 91, 214

Heating
Artificial heat for animal shelters (K. J. T. Ekblaw) 13
Computing fuel requirements for heating buildings (K. J. T. Ekblaw) 149

Hog Houses, Sunshine Efficiency of (F. C. Harris) 219

Howard, J. R.—The farmer's engineering problems 17

Howenstine, J. A.—Power ditchers for farm drainage 147

Insulating Materials, A Comparative Study of Some (R. R. Graham) 171

Irrigation
Research, 1920 (R. W. Trullinger) 11

Ives, F. W.—
Mental tests for predicting success in agricultural engineering 37
Opportunities for the agricultural engineer in commercial work 67

Johnston, W. W.—Building farm drainage ditches with water 249

Jones, J. M.—The maximum use of Southern land 106

Kaiser, W. G.—The design of farm elevators 51

Keilholtz, L. S.—Development of farm electric light and power plants 109

Kelley, M. A. R.—Test of a fan system of ventilation for dairy barns 203

Kline, A. L.—Land clearing with dynamite 29

Kranich, F. N. G.—The president's annual address 7

Land
The maximum use of Southern land 106

Land Clearing (See Clearing)

Lehmann, E. W.—
Cost system for farm motor trucks 75
Terracing to prevent soil erosion 86

Lynde, H. M.—Tile drainage investigations in North Carolina 133

McCrory, S. H.—Results of a drainage investigation 84

Machinery (Mechanical Equipment)
(See also Ensilage Cutters; Harrow, Disk; Plows; Standardization, Structural Equipment; Tillage; Threshers; Wagons; Windmills)
Research, 1920 (R. W. Trullinger) 11

Management
Specifications for farming operations (O. V. P. Stout) 124
Mandenberg, E. C.—Preservative treatment of wood in farm structures 32

Meetings
The 14th annual meeting (report of) 3
Council meeting at Columbus 45
Southern Section meeting (report of) 45
Council meeting at Davenport 114
College Division Advisory Committee meeting in Washington 140
Council meeting at Fargo 164
Belt Machinery Committee 164
Council meeting at Chicago 214

Mental Tests for Predicting Success in Agricultural Engineering (H. E. Burtt and F. W. Ives) 37

Mohr, A. F.—Tests show increased efficiency in windmill performance 99

Morse, S. F.—
Training the agricultural engineer 56
Agricultural engineer in commercial work 150

Nyberg, Chris—A standard belt pulley 21

Operations, Specifications for Farming (O. V. P. Stout) 124

Orchard Cultivation (See Tillage)
Parsonage, E. E.—Standardization of farm wagons 40

Patty, R. L.—Farm septic tank exhibit 80

Plows
Factors influencing the draft of plows (E. V. Collins) 27
Discussion 59
Left-hand plow investigation (A.S.A.E.) 92, 142

Preservation, Wood
Preservative treatment of wood in farm structures (E. C. Mandenberg) 32

Pulley, A Standard Belt (Chris Nyberg) 21

Reclamation, Land
(See also Clearing; Drainage; Erosion; Explosives; Irrigation)
Reclamation Division approved 68
The maximum use of Southern Land (J. M. Jones) 106
An opportunity for reclamation engineers (David Weeks) 173

Research
Research in agricultural engineering, 1920 (R. W. Trullinger) 9, 243

Roofs
A result of improper barn roof construction (R. W. Carpenter) 123

Sanitation (See Heating; Sewage Disposal; Ventilation; Water Supply)

Scoates, D.—Standardization of agricultural engineering instruction in the South 63

Sections (A.S.A.E.)
Southern Section to meet 22

Septic Tank (See Sewage Disposal)

Sewage Disposal
Research, 1920 (R. W. Trullinger) 11
Farm septic tank exhibit (R. L. Patty) 80

Silo Fillers (See Ensilage Cutters)

Sjogren, O. W.—Tractor testing in Nebraska 34

Smelker, W. W.—Cultivating California orchards 156

Smith, L. J.—A new system of barn ventilation 248

Specifications for Farming Operations (O. V. P. Stout) 124

Standardization (Standards)
A standard belt pulley (Chris Nyberg) 21
Standardization of farm wagons (E. E. Parsonage) 40
The economics of standardization (A. T. Taber) 57
A plea for standardization progress 101
Farm equipment standardization from the manufacturing standpoint (G. W. Crampton) 102
Code work of A.S.A.E. Belt Machinery Committee 164
Possibilities in farm equipment standardization (E. A. White) 230

Stout, O. V. P.—Specifications for farming operations 124

Strahan, J. L.—The design of outtake flues for stable ventilation 207

Structural Equipment
Artificial heat for animal shelters (K. J. T. Ekblaw) 13

Swenehart, John—Picric acid as an agricultural explosive 246

Taber, A. T.—The economics of standardization 57

Tanner, P. A.—Farm tractor ignition 157

Teaching
(See also Educational)
Standardization of agricultural engineering instruction in the Society (D. Scoates) 63

Terracing (See Erosion)

Threshers, Grain
Proposed A.S.A.E. rating code 166
Tests for rating grain threshers 206

Tillage
Cultivating California orchards (W. W. Smelker) 156

Tractors
Making a tractor drawbar test (E. V. Collins) 19
Tractor testing in Nebraska (O. W. Sjogren) 34
Farm tractor ignition (P. A. Tanner) 157
Levelling device for tractors working on hillsides (J. C. Wooley) 227

Trucks, Cost System for Farm Motor (E. W. Lehmann) 75

Trullinger, R. W.—Research in agricultural engineering 9, 243

Ventilation
Report of A.S.A.E. Committee on Farm Building Ventilation (1920) 42
Some fundamentals of stable ventilation (H. P. Armsby and Max Kriss) 151, 174
Test of a fan system of ventilation for dairy barns (M. A. R. Kelley) 203
The design of outtake flues for stable ventilation (J. L. Strahan) 207
Farm building ventilation and some related factors (W. B. Clarkson) 228
A new system of barn ventilation (L. J. Smith) 248

Wagons, Standardization of Farm (E. E. Parsonage) 40

Water Supply
Research, 1920 (R. W. Trullinger) 12

Weeks, David—
Application of the law of variables to the design of drainage outlets 81
An opportunity for reclamation engineers 173

White, E. A.—Possibilities in farm equipment standardization 230

Wilson, A. W.—How explosives help develop waste land 129

Windmills
Tests show increased efficiency in windmill performance (A. F. Mohr) 99

Wood, I. D.—A record system for agricultural engineering specialists 187

Wooley, J. C.—Levelling device for tractors working on hillsides 227
